

Cook Caregiver OF THE MONTH

The August Cook Caregiver of the Month is...

Joan Longcore

Following the passing of a dear mother, family members wanted to share their feelings about the care she received at Waldon Woods. They felt staff members had been successful in meeting her needs in a professional and caring manner. Although all of the caregivers were appreciated, there was one who seemed to go the extra mile in making their mother feel special. Joan Longcore was there to listen, to help make adjustments to any changes and to keep the lines of communication open with all of the family members.

Joan has cared for patients at Waldon Woods for thirteen years. She feels she has learned a great deal from her fellow staff members as well as her patients. She is part of a team effort, one that makes sure patients feel assured they matter and are part of a unique family. It has made her feel that she is not merely being employed, but her life has been given a sense of purpose. She has been touched by caring fellow employees who give meaningful advice and guidelines and by the special patients who contribute to give her life meaning each and every day.

Please consider nominating a Caregiver in your life. Submit your nomination online at www.cookfuneralservices.com or send to:
